

Download the Minnco SnapDeposit app on your Smartphone. Available in both GooglePlay and iTunes.

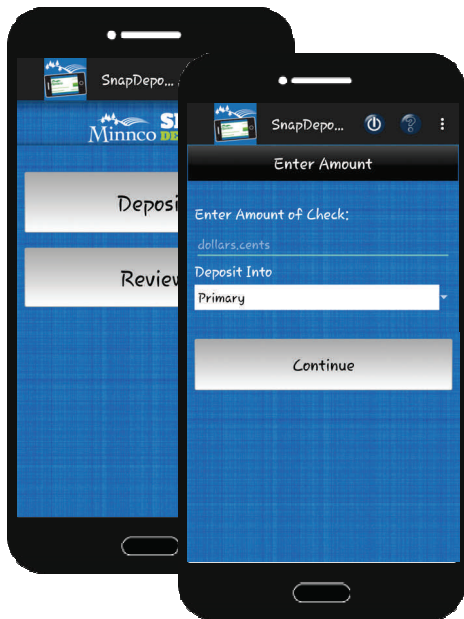

Once SnapDeposit is installed, click on "Sign Up" and go through the enrollment process.

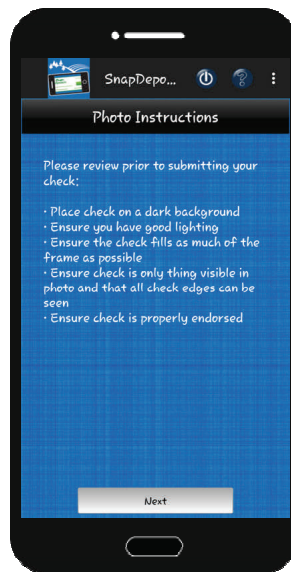

- Make sure when you are enrolling to add all accounts that you want to be able to make deposits.
- Use an email address that you can access from your Smartphone as you will receive notices through email when your deposits have been approved or denied.

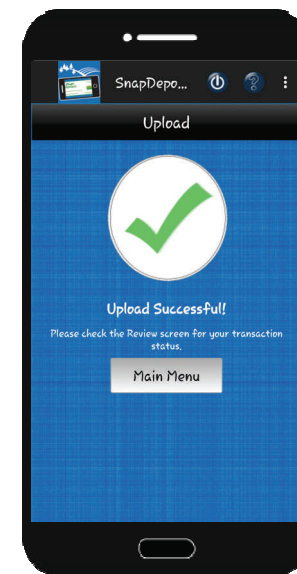

Minnco will review your enrollment and you will be notified by email once you have been approved to use SnapDeposit. The approval email will indicate your depositing parameters.

Once you get the approval email, you can log in and make a deposit. Enter the amount of the check and select the deposit account you want the check to be deposited.

The next screen gives you instructions on how to take photos of the front and back of your check.

Once you take and submit pictures of the front and back of the check, you will see this screen. You successfully submitted your deposit, however, this does not mean that the check has been deposited. Check the "Review" section of the app for more information and watch for an email from SnapDeposit.

SNAP DEPOSIT
 With **SnapDeposit**, you're able to make your deposits remotely by simply taking pictures of your check and uploading the information to Minnco!
